application during the pendency of the requested reexaminations of U.S. Patent Nos. 6,290,391 and 6,347,885. The reason for this request for suspension of prosecution is that the presently rejected claims were copied from the '391 and '885 patents for the purpose of provoking an interference.

As stated in the Requests for Reexamination, the Office has taken inconsistent positions with respect to these claims (that is, the claims were found to be patentable over the prior art in the issued patent, yet unpatentable over the prior art when copied), and it is respectfully submitted that the reexaminations should resolve these issues.

It is respectfully submitted that this request is required by the inconsistent positions taken by the Office and that no fee is required pursuant to Rule 103(a)(2). However, if such fee is required, please charge any required fees to Deposit Account No. 50-1145, Order No. 769-222 Div. 2.

As an RCE is being filed herewith, there is no reply to an Office Action outstanding (see Rule 103(a)).

Respectfully submitted,
